

Quality Grating - Plank Products Large Hole Surface

Material Selection - Some materials are special order only.

- Aluminum
- Plain Steel
- Stainless Steel
- Pre-Galvanized

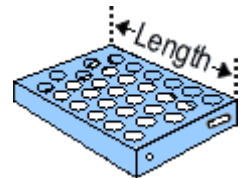

Width

Duke's Plank is available in 5, 7, 10, 12, or 18 inch widths.

Length

Duke's Planks are made to standard lengths of 10 or 12 feet. Planks can also be cut-to-size.

Height

The plank height is the top to bottom measurement of the plank channel and is available in 1-1/2 or 2 inches.

Gauge or Thickness

The gauge is the thickness of the plank. The higher the gauge, the lighter and less durable the material. This gauges and weights chart can provide additional information.

- Galvanized material available in 13 or 11 gauge.
 - Plain Steel material available in 13 or 11 gauge.
 - Aluminum material available in 0.125 inch.
 - Stainless material available in 16 gauge.
