

Quality Grating – Plank Large Hole Walkway Surface

Material Selection - Some materials are special order only.

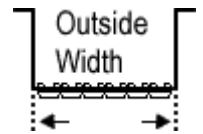

· Plain Steel

· Pre-Galvanized

Width

The widths, or the full outside to outside measurements, for Duke's Walkway are:

- 26 inch or 32 inch for 13 gauge material.
- 26 inch, 32 inch, or 38 inch for 11 gauge material.

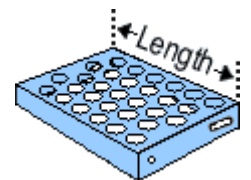

The inside measurements, not including the 1 inch flanges on the outside of the walkway, are:

- 24 inch or 30 inch for 13 gauge material.
- 24 inch, 30 inch, or 38 inch for 11 gauge material.

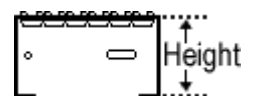

Length

Duke's walkways are made to standard lengths of 10 feet or 12 feet. Walkways can be cut-to-size.

Depth or Height

The depth is the top to bottom measurement of the Walkway. Duke's walkways are only available in a 5 inch depth.

Gauge or Thickness

The gauge is the thickness of the material. Available in 11 or 13 gauge. The higher the gauge, the lighter and less durable the material. This gauges and weights chart can provide additional information.

Quantity

Quantity is the number of full panels or pieces you will need. Duke's Wire Mesh will quote you on the exact quantity you specify and inform you if minimum quantities apply.
